WE'RE FOR AMERICANS!

The peace-loving people of the country had hoped that after the campaign was over the parrots and magpies of the Popocratic party would have the good sense to shut up for awhile about the "crime of 1873."

It was not that a continuance of this sort of chatter would do any particular harm, says the Commercial Tribune, but simply because the lovers of truth and veracity had grown tired of hearing the same old lie over and over again, long after everybody had refused to believe it.

But there seems to be no hope for the kind of birds to which we have referred. They will talk. It's the only exercise they get. They are still jabbering about the demoralization of silver, and yet, according to the Mint reports, the United States has already coined more standard silver dollars in the year 1906 than were issued during the entire century before 1873. Between January 1st and November 1st of this year there were coined 16,000,000 silver dollars, or just double the amount that had come from the Mint—previous to that awful great twenty-three years ago, when the midnight assassin struck down one of the great money metals of the world. We are not only "doing something for silver," but we are doing all that can be done until some new conditions change its status in the commerce of civilization.

Alex. Wilson, a Bardonia Negro, ate 13 cans of oysters to wit a bet of \$1.25. If they were the marcanite article sold under the name of "cove oysters," that fellow's stomach must be wrought iron and copper riveted.

The last page of Munsey's Magazine has been sold for one year to four advertisers, each of whom occupies a quarter of a page and pays \$5,000, making a total of \$20,000 for the page. One line in The Youth's Companion costs \$3, while a page in The Ladies Home Journal costs \$4,000. The rates for advertising in The Ledger are about the same—in the minds of some people.

Meeting For Men Only.
Dr. Lettich will preach at the M. E. Church, South, at 3 p. m. tomorrow a sermon to men only.

If you have not heard this strong and practical preacher be sure and hear him that hour. If you have heard him you will certainly hear him again.

He will lead you to think, and right thought will lead to a better life.

TOMORROW NIGHT.

The Bible Society Will Meet at the M. E. Church.

As has been heretofore announced the Bible Society's annual meeting will be held tomorrow (Sunday) night at 7 o'clock at the M. E. Church, Third Street.

The members of the Executive Committee from the various Churches are requested to see that the collections are taken up at the morning services and amounts reported to Mr. Pecor, the Treasurer, so as to be announced at the night service.

The great American Bible Society is non-sectarian, and its work is to distribute the sacred scriptures without note or comment at the smallest possible cost, or without any cost where they are unable to pay, and deserves the generous support of all denominations.

Let there be a large turnout, as this is the seventy-fifth annual meeting.

The Ledger's Prophecies Being Fulfilled!

"Advance Agent of Prosperity."

THE LEDGER was insistent throughout the late campaign that the election of McKinley meant the resurrection of Confidence and the immediate resumption of Manufacturing and Commercial Business throughout the country. There were those who questioned that this very opposite would be the case.

It is useless now to argue the question; it is settled by the results—and that our readers may see who was right The Ledger will give, from day to day, a partial list of the industries that are reviving under the assurance that the incoming Administration will be friendly to American interests.

BIRMINGHAM, ALA.
The rush of foreign orders for Alabama Pig Iron has never before been equaled. The Blount Iron and Steel Company yesterday sold \$3,000 tons of a firm in Calcutta, India. The same buyers want 3,000 more tons. The Tennessee Coal, Iron and Railroad Company yesterday shipped \$500 tons of iron to Liverpool and has inquiries from Rotterdam, Genoa and other European points aggregating 30,000 tons. The ability of Alabama furnaces to underwrite European competitors and at the same time furnish a high grade of article of iron accounts for the growing demand. Local ironmasters say their only trouble is inability to secure best room for shipments because of the heavy grain and cotton movement at present. Were it not for this, they say, their foreign trade would be much larger.

The Ashland Coal and Iron Railway Company, operating coal mines twenty miles back of the city, has increased the mining rate ten cents on the ton, as a result of the election of McKinley. Nearly 200 men are employed.

Big Eliza Furnace at Ironston, which is now being reconstructed, is sticking up like a giant in a short time. Big Eliza is one of the largest iron furnaces in the country, but has not been operated for a number of years.

Cape Colony experts annually \$100,000 worth of dried flowers.

OOT EVEN WITH WASHINGTON.

A Virginian Had a Grudge Against the National Capital.

Washington Star.
A Washington man who had some business before one of the smaller courts in a Virginia county went down there on a recent Saturday to attend to it. He found the Judge before whom the matter came, and as it was a merely pro forma proceeding he had no anticipation of trouble in getting it done. When the matter was presented the Judge said:

"No, sir; if I transact that business for you I will have to open court, and I will not open court for any Washington man on Saturday."

"Why not?" asked the astounded capital city man.

"Because, sah, I went down to Washington on a Saturday not long ago and not a single Judge was sitting in the court."

I am an attorney, sah, an attorney admitted to practice in Washington court, and yet because it was a Saturday I was not allowed to practice there, sah, when I had some vital points to make, sah."

"Well, I am not blamed for that," said the man from Washington, "you ought not to hold me responsible for what the Judges do or do not do."

"It makes no difference, sah, you are a part of the system, a devilish bad system, sah, and you must help to reform it, sah, and you are the first man I have had opportunity to impress my views upon, and I am going to make them felt. Go home and reform your system of Saturday case, and then come to me, sah."

"And Virginia got even with Washington in one case."
